

Reepay Payment Extension

For Magento 2

Created by Radarsofthouse on February 21, 2019.

Introduction

Reepay Payment Extension is a Magento 2 payment extension for the Reepay Payment gateway, which can be found here <https://reepay.com/>. Reepay Payment Extension will allow your Magento site to receive online payments using the most popular payment methods such as Mastercard, Visa, Visa Electron, Maestro, Dankort, Visa Dankort, MobilePay, ViaBill, Forbrugsforeningen and more.

DISCLAIMER: By downloading and installing the extension you accept that any use is on your own responsibility.

Installation

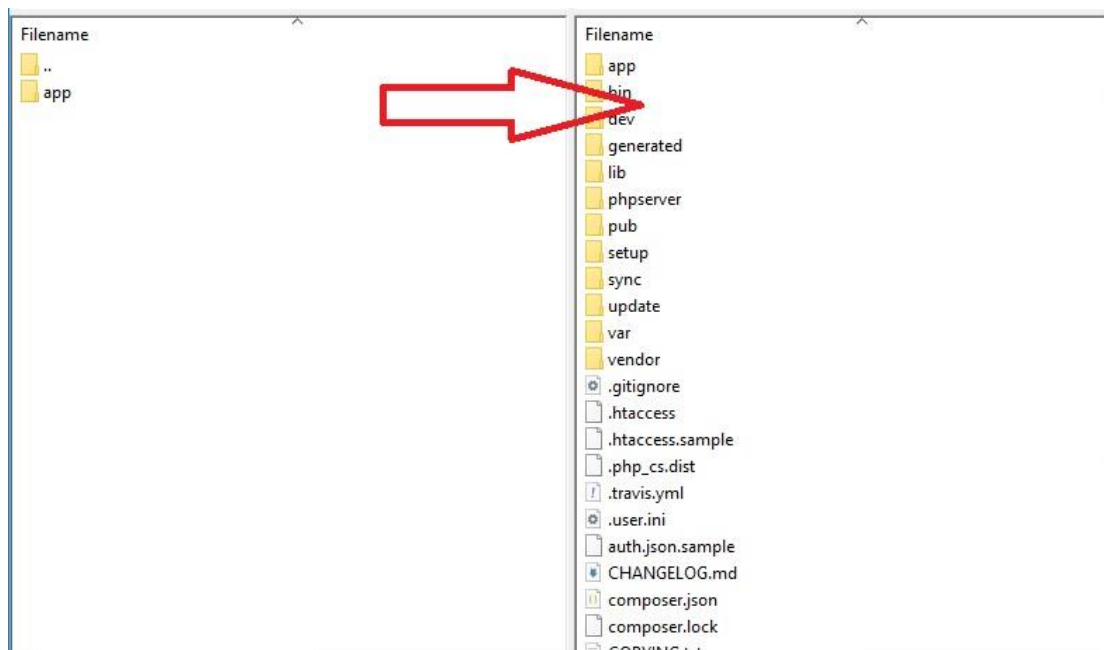

Method 1: Install via Composer

1. Connect to your Magento directory with SSH
2. Install Reepay payment plugin via composer
 - `composer require radarsofthouse/reepay`
3. Run the 4 following commands
 - `php bin/magento module:enable Radarsofthouse_Reepay`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento cache:flush`
